## Financial things you need to know.

Medicare (if you qualify medically) will pay for 20 days of full coverage. After that there is a co-pay of \$167.50 per day that is the responsibility of the resident. If you have an insurance that will pay the copay, please provide that to us immediately. If the insurance does not pay, the resident is responsible anyway.

If you are applying for Medicaid assistance to stay in the facility, you will need to complete an application and provide all documents to Medicaid in a timely manner. If you fail to do so, the Medicaid application will be denied and you will be ineligible. If ineligible, the resident is responsible for all charges during the stay at the facility. ALL INCOME of a Medicaid resident, regardless of source, must be used for the care of the resident at the facility and must be paid to the facility on a monthly basis. That includes, Social Security, VA, Pensions, and any other income. The only exception is a personal needs allowance of \$30 per month and premiums used to pay a supplement to Medicare and drug coverage.

If you are private pay or if Medicaid denies eligibility, you will be responsible for all charges. Physician's charges and pharmacy charges are billed separate.

As a resident or resident representative, I understand it is my responsibility to turn over the previously mentioned funds for care needed at THCRC.
